

# GYSARC 100/120

MMA welding for everyone

*Boost your business with the best value for money on the market!*

[www.gys.fr](http://www.gys.fr)

**Extra Small size** for easy transport and storage

**Can continuously weld**

electrodes up to  $\varnothing$  3.2 mm (120A)

**Easy welding** with automatic assistance functions:

**Hot Start**  
Easy ignition.

**Arc Force**  
Instant increase current in case of difficult welding.

**Antisticking**  
Reduces the risk of sticking if the electrode comes into contact with the work-piece.

**Safe**

- Thermal protection
- Overcurrent protection

**Supplied with**

- Earth clamp (1.6 m /  $\varnothing$  10 mm<sup>2</sup>)
- Electrode holder (1.6 m /  $\varnothing$  10 mm<sup>2</sup>)

- Welding current adjustable from **10 to 120 A** max.
- Designed for electrodes from  **$\varnothing$  1.6 to 3.2 mm** max.
- Welding up to **8 mm**
- Dimensions : 15 x 23 x 10 cm - **2.7 kg**
- Duty cycle **20%@Imax**

**100 A**  
ref. 013698

**120 A**
