

**400V steel dent puller with 3800A output current, ideal for all steel straightening and dent pulling jobs.**

**Quite efficient thanks to 2 guns, one automatic and one with trigger, and its user friendly control panel.**

## SIMPLE TO USE

### Only 2 parameters to select :

- the output power level (amongst 11 levels)
  - the tool which is used (amongst 7 tools)
- => **no need to select the welding current and welding time.**

### Manual triggering

The welding occurs when pressing the trigger when the tool is in contact with the part to straighten.

### Automatic triggering

The welding is triggered automatically by a simple contact between the tool and the part to straighten.

### Cables length

Power supply: 8 m

Earth: 2 m

Gun: 2 m +3 m

**INCLUDED**  
Spotter Box Pro  
Ref: 050075
